4.5. Intellectual Property

AT&T grants Customer a limited, non-exclusive, non-transferable license to use the Service during the Term solely in connection with the receipt of the Service. 4.6. Privacy Terms and Conditions

4.6.1. Customer represents and warrants that it has appropriate rights to provide End User data (which may include Customer Personal Data) to AT&T in connection with the Service. Customer expressly grants AT&T permission to access information contained in application layer 7 for the sole purpose of managing the performance of the Wi-Fi network. 4.6.4. Customer is responsible for the way the data is used by Customer; and its employees, guests, and representative's access to and use of the data, content, or communications generated by this Service.

4.6.5. Depending on how Customer collects or uses the Service, Customer may be required to provide notice, obtain opt-in consents, or provide periodic reminders, all separate from providing terms and conditions to End Users, so that End Users will be aware that location is being tracked when visiting Customer's Sites. If Customer buys other products or services from AT&T or others that, in conjunction with Customer's business application, allows Customer to know when an End User is at Customer's Site(s), Customer may be required to provide separate notices, obtain separate opt-in consents, or provide periodic reminders (all separate from terms and conditions) so that End Users will be aware that location is being tracked in multiple ways when visiting Customer's Site(s).

Rezoning Modification Request Staff Report
For Recommendation Only

Staff Analysis/Background

This is a request for a major modification to a condition of rezoning. The zoning was approved in 2005 for both R-50 and R-75 lots with the condition that 50% of the lots include side entry garages. It should be noted that under the previously approved plan, the R-50 lots had a 10-foot front yard setback and a 30-foot rear yard setback.

Based on projects approved under this zoning district, the City has realized that the front yard setback is inadequate for front entry garages. As a result, the City placed a moratorium on R-50 lots to halt this development practice. However, in this case, the development was approved prior to the moratorium. Key Information:

- Overall Development 78.36 acres
- Total Number of lots – 225
- Gross Density 2.87 du/ac
- Minimum Lot width – R-50 (60 feet wide) & R-75 (75 feet wide)
- Minimum Lot size: R-50 (6,000 sq. ft.) & R-75 (10,000 sq. ft.)

Due to the width of the approved lots, it appears that only the corner lots are large enough to meet the requirements of the condition. The applicant claims to have spoken with multiple builders and has determined that no dwelling unit design has been found that is compatible with current market demands.

The applicant claims to have spoken with multiple builders and has determined that no dwelling unit design has been found that is compatible with current market demands. After numerous discussions with staff regarding a better product/design, the applicant is now requesting:

A total deletion of the requirement for side entry and the allowance of front entry garages on 100% of the lots with enhanced landscape.

In order to compensate for the modification, the applicant proposes to

- (1) modify the front setback to 15 feet for all interior front entry R-50 lots (an increase of 5ft).
- (2) Modify the rear setback from 30 feet to 25 feet for all interior front entry R-50 lots.
- (3) All front entry R-50/R-75 lots shall have additional landscaping to enhance the curb appeal along the street frontages. (Six evergreen shrubs along each lot, seven perennials or grasses, three small evergreen or flowering shrubs, 25 groundcovers)
